

Concrete Hopper

Concrete Hopper - This attachment is a self-dumping hopper that automatically starts to unload whenever bumper release contacts the side of a dumpster. Once dumping is completed, the hopper returns to a locked and upright position. This piece of equipment even comes together with a cable which allows operation from the seat of the lift truck in order to have the option of manually dumping the hopper. There is a locking chain provided to secure the hopper to the tine truck. This product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper likewise has a blue powder coat finish so as to maintain durability.
